Clinical care costs per patient increased from 2018 to 2022 by

32%

Total clinical care costs across all health centers were \$1.7B in 2018 and \$2.1B in 2022.

New York's Community Health Centers promote health equity by increasing access to care in underserved communities statewide. They provide primary, dental, vision, and mental health care, as well as services that reduce barriers to care, such as translation, transportation, and access to other social services. **Learn more at chcanys.org.**

COMMUNITY HEALTH CARE ASSOCIATION of New York State

Each year, CHCs serve 1 in 9 New Yorkers:

2.3 million people

That's more than the entire population of New Mexico

The majority of them live in poverty:

73%

live at or below the Federal Poverty Line

That's \$13,590 for a single adult and \$27,750 for a family of four

And over 104,000 (5+%) are unhoused

28%

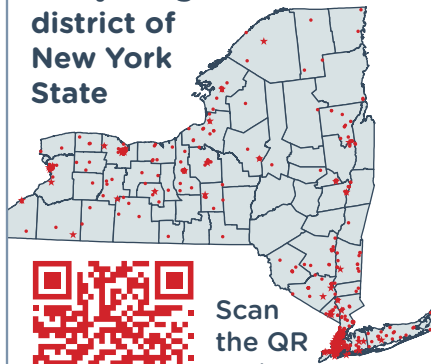

are non-native speakers

68%

identify as BIPOC

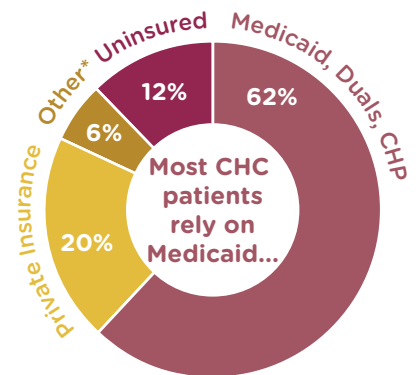

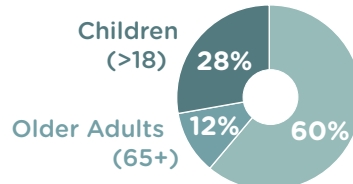

Black, Indigenous, People of Color

Hispanic/Latinx 37%

40%

are kids and seniors

... but our rate of patients with no insurance is nearly 3x the statewide average

*Other includes Medicare and Non-CHP Public programs

New York's Community Health Centers serve everyone, regardless of their immigration status, insurance coverage, or ability to pay. Our patients are racially and ethnically diverse, live in rural and urban areas, and speak many different languages. The vast majority of them are on public insurance programs, are uninsured, or qualify for discounts due to high costs of their insurance plan. **Learn more at chcanys.org.**
