

Lorraine Leong

William F. Ryan Community Health Network

Kudos to our National Community Health Advocate of the Month for April; Lorraine Leong, the Director of Community Relations and Advocacy at the William F. Ryan Community Health Network in New York, NY. Lorraine joined the Ryan family in 2006 with unmatched passion and dedication to motivate patients, board members, and staff to get involved and engaged in grassroots advocacy. Earning her star status, Lorraine holds the state record, two years running, for organizing the largest HC contingent to attend the CHCANYS state advocacy day – sending 90 Ryan HC advocates to the Hill in Albany in 2008. Lorraine's persistence and grassroots spirit also yielded nearly 2000 signatures on the 2007 Community Health Center petition drive and is responsible for garnering the support of countless policy makers on behalf of HC's. Please join us in congratulating our April National Community Health Advocate of the Month, Lorraine Leong.
