#### NYS COMMUNITY HEALTH CENTERS

# FACTS 2021

#### WHO WE ARE

Community Health Centers (CHCs) are a "one stop shop" for health care, providing high quality primary, preventive care and support services to all New Yorkers, regardless of their immigration status, insurance coverage, or ability to pay. Each CHC has a Board of Directors comprised primarily of people who live in the communities they serve.

WE ARE COMMUNITY HEALTH CARE CHAMPIONS

## WHO WE SERVE

2.3 million New Yorkers 800+ sites statewide

Low Income (200% FPL and below)

People of Color 36% Latinx | 27% Black | 8% Other 12% of all NYS residents

29% Speak limited English

#### HOW THEY PAY

Most CHC patients rely on publicly funded health insurance, while a substantial minority have no insurance at all.

 Medicaid & CHIP

# WHAT MAKES US SPECIAL CHCs provide a wide range of services to ensure their patie

CHCs provide a wide range of services to ensure their patients' health and well-being.

Language assistance

like insulin

disorder treatment

living with HIV/AIDS

STI prevention programs

### During the pandemic, CHCs ensured that people in the hardest hit areas continued to get the services they needed without having to visit the hospital. Now, patients can

CARE IN GOOD TIMES AND BAD

receive care in person, online, or over the phone.
