BE A PART OF OUR  
**CARING COMMUNITY**

If you want a career that gives you opportunities to grow and thrive personally and professionally while making a real difference in the lives of others, consider work with one of New York State's Community Health Centers. **We are community-focused health care providers and we invite you to join us.**

Community Health Centers are located where people need us most and provide care to everyone, regardless of ability to pay, insurance coverage, or immigration status. We see our patients as people, not payers; as neighbors, not numbers.

We provide primary and preventive care as well as dental, vision, and behavioral health services. We take care of children, seniors, and all ages in between. And when our patients need additional support, we also connect them to other services, such as housing and transportation.

**We see our patients as people, not payers; as neighbors, not numbers.**
