

ABOUT US

New York's CHCs serve people at more than

800
sites statewide

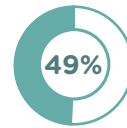

We provide primary medical care AND:

provide **behavioral** health care

provide **dental** care

provide **vision** care

provide **substance use** disorder services

44%

of CHC funding is from Medicaid

Medicaid
\$1,482K

Medicare
\$322K

Other Patient
\$147K

COVID Relief
\$133K

State & Local Gov't
\$291K

330 Grants
\$273K

Private Insurance
\$389K

Other Non-Patient
\$310K

Expenses outpace revenue from patient services, so CHCs combine various funding sources to meet patient needs.

The split between direct services and facility and other expenses is about

50-50

Medical Services
\$1,098K

Other Clinical Services
\$409K

Other Expenses
\$540K

Enabling \$142K

Facility & Support
\$1,101K

Enabling services include transportation to and from CHCs and assistance obtaining food or housing.

We employ **20,000+** Full time staff

7,034 Medical Services
Physicians
Nurses
Lab Technicians
Etc.

5,981 Other Clinical & Enabling Services
Dentists
Pharmacists
Social Workers
Etc.

7,411 Facility & Non-Clinical
Maintenance staff
Administrators
Receptionists
Etc.

Some of the hardest to recruit positions are nurses, behavioral health staff, and dental hygienists.

New York's Community Health Centers promote health equity by increasing access to care in underserved communities statewide. They provide primary, dental and vision care, as well as services that reduce barriers to care, such as translation, transportation, and access to other social services. **Learn more at chcanys.org.**

ASSOCIATION
of New York State

CLIENTS

Each year, CHCs serve 1 in 9 New Yorkers:

2.3 million people

That's more than the entire population of New Mexico

The majority of them live in poverty:

71%

live at or below the **Federal Poverty Line**

That's \$13,590 for a single adult and \$27,750 for a family of four

And nearly **95,000 (4%)** are **unhoused**

28%

are non-native speakers

¿qué?

என்ன?

Kisa?

21%

have hypertension or heart disease

The next three conditions they most often have are:

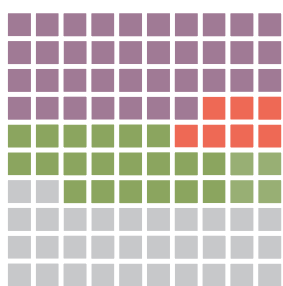

- 8.2% Diabetes
- 7.9% Asthma / Chronic Respiratory Disease
- 7.4% Depression / Mental Health Disorder

68%

identify as **BIPOC**

Black, Indigenous, People of Color

Hispanic/Latinx 36.6%

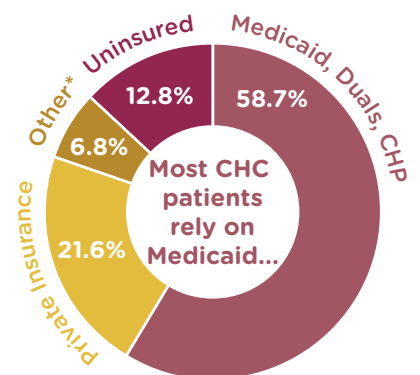

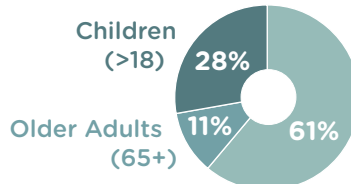

Other 7.2%

Black 24.5%

Non-Hispanic White 31.7%

39%

are kids and seniors

... but our rate of patients with no insurance is nearly **3x** the statewide average

*Other includes Medicare and Non-CHP Public programs

New York's Community Health Centers serve everyone, regardless of their immigration status, insurance coverage, or ability to pay. Our patients are racially and ethnically diverse, live in rural and urban areas, and speak many different languages. The vast majority of them are unable to afford private health insurance without subsidies. **Learn more at chcanys.org.**
