

Improving Outcomes for All:

Closing Gaps in Chronic Disease Management

Program Description

United Hospital Fund is launching a new learning collaborative with a select group of NYC primary care practices to address disparities in the treatment of patients living with chronic diseases.

With hands-on learning, expert coaching, and peer support, practices will leverage their data to identify gaps in care and design and implement patient-informed improvement projects to close them.

Practices will focus on conditions of the highest priority to them and will be required to measure and track their progress.

Additional Details

- Timeframe: October 2025 – October 2027
- Practices will receive \$40,000 to help support their time.
- Collaborative meetings will require both in-person and virtual attendance.
- Project subject to final funder approval.
